

BRYAN DIAZ

SOFTWARE DEVELOPER

EXPERIENCE

FULL STACK SOFTWARE DEVELOPER RTS Labs

06/21-current

- Develop highly maintainable code for software implementation as well as coordinate with other engineers to evaluate and improve software interfaces.
- Consult regularly with internal customers on application development project status, new project proposals and software-related technical issues as well as lead client demos.

FULL STACK SOFTWARE DEVELOPER Miami-Dade County Public Schools

02/21-09/21

- Developed user-oriented features using frontend and backend languages and frameworks such as Vue.js and node.js, maintaining Miami-Dade County's adult education data portal.
 - Orchestrated efficient large-scale software deployments.
-
